

## Afternoon help!

Each of you will be placed into study groups for afternoon exercises. You are expected to work with your study group every day **at least** until 4:30pm ET (official Tech Elevator hours are 9am to 4:30pm Monday through Friday).

You can meet with your study group using Zoom (free for 1:1 or \$15.00 a month for up to 100 participants), Google meets (free), Jitsi (free), or any other meeting software you wish to use.

Make sure you and your study members are in Sococo gathered in your specific study location.

If you need help:

- Check with your study partners first
- Add a message to the nlr-2-hw-help channel and see if any of your fellow classmates can help
- Log a request in Take-a-turn.org and be added to the queue where an instructor or Academic Fellow will get to you as soon as possible. Take-a-turn provides information regarding how many people are in front of you.

Keep in mind that “office hours” start after class and stop at the end of the day (typically Noon to 5pm). If you are asking for afterhours help, you may try Take-a-turn, but you may also need to reach out to one of us directly. We may or may not be available to help.

During business hours, if you reach out to us individually, we will request you add yourself to the queue in Take-a-turn.
